Agency

Office of Pesticide Programs

ETI H2O, INC.
725 Gillespie Way
El Cajon, CA 92020

AGENT: Steptoe and Johnson, LLP
330 Connecticut Avenue, N.W.
Washington, D. C. 20036-1795

Attention: Juli Mann

Subject: SDC3A
EPA Registration No. 72977-5
Amendment Dated July 20, 2011

The amendment, submitted in connection with registration under section 3©(7)(A) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, to add use new claims against various bacteria, viruses and fungi, is acceptable, provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3©(5) and sec. 4 uses when the Agency requires all registrants of similar products to submit such data.
2. On page 2 of the proposed label, change "Fiberglass" to read "Sealed fiberglass". Fiberglass is a porous surface.
3. As stated in past reviews, contact time and kill time are synonymous. To present kill time that is different than the contact time is misleading to the end-user.
4. Refer to the enclosed copy of the review under "CONCLUSIONS" and "LABEL" for further comments.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Page 2
EPA Registration No. 72977-5

A stamped copy of the "accepted" product labeling is enclosed for your records. Submit two (2) copies of final printed labeling before you release the product for shipment.

If you have any questions concerning this letter, please contact Martha Terry at (703) 308-6217.

Sincerely,

Marshall Swindell
Product Manager 33
Regulatory Management Branch 1
Antimicrobials Division (7510P)

72977-5

(CA-MRSA-PVL), *Escherichia coli* O157:H7, *Acinetobacter baumannii*, *Campylobacter jejuni*, Carbapenem resistant *Escherichia coli*, Carbapenem resistant *Klebsiella pneumonia*, and Carbapenem resistant *Klebsiella pneumoniae* (NDM-1 [positive] [+]) the surface must be completely wet with [SDC3A] [this product] for 2 minutes. The surface may then be wiped dry with a clean towel. When used as directed, [SDC3A] [this product] provides residual protection from *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella enterica* up to 24 hours after initial application. Do not [touch] [contact] treated surface after application if residual protection is to be maintained.

NOTE: The following condensed instructions may be use in place of the above paragraph.

To kill bacteria, [apply] [spray] [mist] [SDC 3A] [this product] to the surface until thoroughly wet for 2 minutes. The surface may then be wiped dry with a clean towel. When used as directed, [SDC3A] [this product] provides residual protection from *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella enterica* up to 24 hours after initial application. Do not [touch] [contact] treated surface after application if residual protection is to be maintained.

Fungus Control:

For effective control of the fungus *Trichophyton mentagrophytes*, the surface must be completely wet with [SDC3A] [this product] for 5 minutes. The surface may then be wiped dry with a clean towel. Re-apply when cleaning or when new growth appears.

NOTE: The following condensed instructions may be use in place of the above paragraph.

To kill fungus, [apply] [spray] [mist] [SDC3A] [this product] to the surface until thoroughly wet for 5 minutes. The surface may then be wiped dry with a clean towel. Re-apply when cleaning or when new growth appears.

***Viral Control:**

To kill Herpes Simplex Type 1 [F(1) Strain], Rotavirus, Human Coronavirus, Influenza A (H1N1), Swine Influenza A (H1N1), Adenovirus Type 2, Respiratory Syncytial Virus [RSV], Murine Norovirus [MNV-1], Norovirus [as Feline Calicivirus], Avian Influenza A, Influenza A Virus [Hong Kong strain], Rhinovirus [R37 Strain 151-1] and Polio Virus Type 2 [Lansing Strain] the surface must be completely wet with [SDC3A] [this product] for 1 minute. The surface may then be wiped dry with a clean towel

NOTE: The following condensed instructions may be use in place of the above paragraph.

To kill viruses, [apply] [spray] [mist] [SDC3A] [this product] to the surface until thoroughly wet for 1 minute. The surface may then be wiped dry with a clean towel.

Note to Reviewer: The following are optional phrases as outlined in the EPA's Guidance for Testing and Labeling Claims against Pandemic 2009 H1N1 Influenza A Virus (Formerly called Swine Flu)

[Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by influenza A virus. [SDC3A] [This product] is a broad-spectrum hard surface disinfectant that has been shown to be effective against [Influenza A Virus (H1N1)], [Influenza A Virus], [Avian Influenza A Virus] and [Swine Influenza A Virus (H1N1)] and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).]

[SDC3A] [[This product] has demonstrated effectiveness against Influenza A virus and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 influenza A virus.]

Kills HIV-1, HBV and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV, HBV or HCV): **Instructions for Cleaning and Decontamination Against HIV, HBV and HCV** on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids: **Personal Protection:** When handling items soiled with blood or body fluids, use appropriate barrier protection such as latex gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Apply [SDC3A] [this product] to area to be treated. Allow the surface to remain wet for 30 seconds to kill HIV-1. Use 1 minute for HBV and HCV. The surface may then be wiped dry with a clean towel. These contact times will not control all organisms listed on this label. Refer to application instructions for other organisms. **Disposal of Infectious Materials:** Blood and other body fluids should be appropriately and disposed of according to federal, state and local regulations for infectious waste disposal.

Sanitization [of food contact surfaces]

Do not use this product on utensils, dishes or glassware.

NOTE TO REVIEWER: Products labeled only for consumer/residential/ commercial use will include the following directions for use:

[To] Sanitize Food Contact Surfaces

Spray, pour or spread [SDC3A] [this product] on surface until thoroughly wet. Let stand for 60 seconds [one minute] and wipe with a clean towel or allow to air dry. No rinsing is required.

NOTE: [Bracketed] text is optional wording. Bold/italicized text is information only and not part of the label. Page 5 of 12

[WISCONSIN STATE DIVISION OF HEALTH DIRECTIONS FOR EATING ESTABLISHMENTS

1. Scrape and pre-wash articles whenever possible.
2. Wash with a good detergent or compatible cleaner.
3. Rinse with potable water
4. Sanitize in **[SDC3A]** [this product] without diluting. Immerse all articles for at least one minute or for contact time specified by governing sanitary code.
5. Place sanitized articles on a rack or drain board to air dry.

NOTE: A clean potable water rinse following sanitization is not permitted under Section HFS 196.13 of the Wisconsin Administrative Code.]

NOTE: Optional refill instructions

To refill [spray bottles]:

1. [REMOVE] Remove trigger sprayer [or cap] from empty bottle
2. [POUR] Remove cap from refill and pour contents directly into empty [bottle].
3. [USE] Replace trigger sprayer and use as you normally would.

NOTE: The following language will be printed on the label of products intended to be sold to health facilities:

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

NOTE: The following may only be used on the back or side panel of the label if a supplemental registrant obtains an NSF listing:

This statement will be used on NONREFILLABEL CONTAINERS.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area away from direct sunlight at temperatures above freezing.

Pesticide Disposal: Nonrefillable Container. Do not reuse or refill this container –or- [Refill only with this product. Do not reuse or refill except as described in the directions for use.]. If empty: Place in trash or offer for recycling if available. Rinse thoroughly before discarding in trash or recycling.

This statement will be used on REFILLABLE CONTAINERS (typically 55 gallons or larger).

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area away from direct sunlight at temperatures above freezing. Store in original container.

Pesticide Disposal: To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a national Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Container Handling: Refillable Container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

To clean the container before final disposal, empty the remaining contents from this container into a mix tank or storage tank. Fill the container about 1/4 full with solvent used in the end use product. Replace and tighten closures. Agitate vigorously or recirculate water with a pump for 2 minutes. Pour or pump rinsate into mix tank or rinsate collection system for later use or disposal. Repeat this rinsing procedure two more times

IN CASE OF EMERGENCY

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact [CHEMTREC 1-800-424-9300] or [the National Pesticide Information Center at 1-800-858-7378, Monday through Friday, 9 a.m. to 5 p.m] for emergency medical treatment information.
